With its experience from the past, Mekap added safety shoes to its product range in 1996 to enter the ppe industry. Using the latest technologies in its production processes.

Mekap provides the safety standards needed in the working environment by completing the necessary test procedures and certifying its products.

It leads the sector with its high quality comfortable, durable and healthy safety shoes.

ELEMENT

H U B

milano

Element Hub Milano is a business development and distribution partner based in Italy. With a focus on long-term market relevance, the company integrates operational discipline, market intelligence, and structured delivery. Each process—from regulatory alignment to commercial rollout—is designed to align strategic priorities with regional market dynamics.

As the exclusive seller of **Mekap Pro**, **Element Hub Milano** manages the brand's presence across selected regions, tailoring each launch to its local market requirements. All operations—from certification and distribution to retail onboarding and after-sales support—are managed under defined standards to ensure precision, relevance, and sustained consistency in the market.

Toe-cap (Resistant 200 Joule)

Anti-static footwear

E Shock absorption in the heel area

FO Sole resistant to oil and hydrocarbons

P Anti-perforation protection

HRO Heat resistance of outsole (+300 °C/min)

HI Heat insulation

CI Cold insulation

CE Label Information

A shoe that bears the sign CE, has passed the mandatory tests relating to the EN ISO 20345:2011 and EN ISO 20347:2012 standards and has been produced of highperformance material.
