PRO BOOTS
Vibram

Designed and

Developed in **Italy**

Anka Pro Boots makes professional Wellington boots for **working life**, from **farms** and **factories** to **building sites**. The name comes from the **Phoenix** in old stories that is reborn from fire.

The Wellington is one of the most familiar things people wear to work, and most people could draw one from memory. Anka is the **Wellington reborn**, looked at again, part by part, with **Italian footwear specialists**: the upper, the fit around the foot, the outsole and the way it is made.

Each part answers to the working day: **water** and **mud**, **wet floors**, **long hours** on the feet. The material, the outsole and the level of protection change with the work, so each model meets a different need.

One of them was made for yours. Build your Anka.

Reborn to be safe.

HOLD YOUR **GROUND**

900 SERIES

The icon of the collection. The 900 Series is made for hard conditions: **construction sites**, **heavy industry** and **outdoor work** in any weather.

Its angular lines are drawn from the Anka, **the bird** behind the name, and protect the upper from wear. Regular calf width, with ProFlex Fitting that **wraps closely** around the foot and up around the ankle. A **kick-off heel** makes them easy to take off.

Three outsole options, all certified **slip resistant** (SR): PU for **everyday comfort**, PU-TPU for added **grip** and **abrasion resistance**, and Vibram® rubber for **heat resistance up to 300 °C**. Toe caps and midsoles are optional, in **steel** or **non-metallic** versions.

vibram

Vibram is the **world leader** in **high-performance** soling systems.

Vibram® combines cutting edge sole designs with **advanced rubber compounds** to deliver optimum performance. From outdoor recreation and exploration, to **industrial / safety environments**, and **fashion catwalks** around the world, the Vibram® yellow octagon symbolizes unparalleled innovation, quality and performance.

For Anka Pro Boots, Vibram® outsoles deliver an additional level of **protection**, offering **heat resistance up to 300 °C** and **strong grip** without compromising durability and performance.

Available on the 909.

YOUR CONNECTION TO EARTH

909

Green

Black

Yellow

Camouflage

Waterproof

The polyurethane upper is injected as a single piece and fully sealed. Feet stay dry through water and mud, all day long.

Wear Resistant

Raised lines and debossed, textured panels protect the upper where it bends and rubs the most. The boot keeps its look through knocks and scratches, shift after shift.

ProFlex Fitting

Developed by Anka. It wraps closely around the foot and up around the ankle, with a seamless lining inside. The boot stays in place as you move, comfortable through long shifts.
Built like a boot. Fits like a shoe.

POWERED BY

RUBBER

Made for Heavy Work

The 909 is the Anka boot with a Vibram® rubber outsole, built for hard conditions where heat and rough ground are part of the work.

Options

Upper	Polyurethane
Toe-Cap	None, Fiber, Steel
Midsole	None, Non-Metallic, Steel
Outsole	RUBBER
Lining	Regular, Warm Line
Sizes	36-48 (EU)

Heat Resistant

The outsole is tested to resist heat up to 300 °C (HRO), keeping its shape and grip on hot surfaces.

Strong Grip

Vibram's legendary grip, with a tread made to hold on rough and wet ground. Certified slip resistant (SR).

Waterproof

The polyurethane upper is injected as a single piece and fully sealed. Feet stay dry through water and mud, all day long.

Wear Resistant

Raised lines and debossed, textured panels protect the upper where it bends and rubs the most. The boot keeps its look through knocks and scratches, shift after shift.

ProFlex Fitting

Developed by Anka. It wraps closely around the foot and up around the ankle, with a seamless lining inside. The boot stays in place as you move, comfortable through long shifts.

Built like a boot. Fits like a shoe.

PU

For everyday comfort
on most floors.

PU-TPU

For added grip and
high abrasion resistance.

Made for Industrial Work

The 904 is the Anka boot with a wear-resistant upper, built for work where bumps and scratches are part of the day.

Options

Upper	Polyurethane
Toe-Cap	None, Fiber, Steel
Midsole	None, Non-Metallic, Steel
Outsole	PU, PU-TPU
Lining	Regular, Warm Line
Sizes	36-48 (EU)

Strong Grip

Multi-directional lugs hold on wet, slippery floors, and the outsole is certified for slip resistance (SR) and ladder grip (LG). Every step feels steady, on the floor or on a ladder.

ANKA

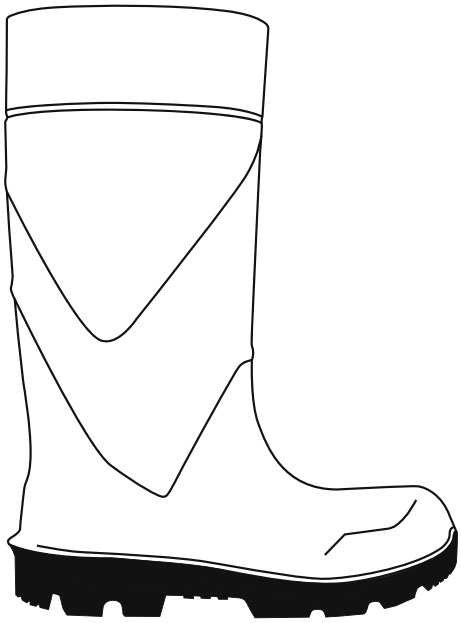

WELL DRESSED.
ALL SHIFT.

Designed and developed in Italy, every Anka boot is shaped as carefully as it is built. It looks as good at the end of the shift as it does at the start, and completes the way you dress for work.

Built for work. Made for you.

ANKA
PRO BOOTS
STAY
ROOTED

100 SERIES

The classic of the collection. The 100 Series keeps to a **familiar, minimal shape**, made for **food processing**, **livestock** and **farm work**.

Smooth, simple surfaces **wash down quickly** between shifts. **Lightweight**, with a wide calf and **ProFlex Fitting** that wraps closely around the foot and up around the ankle. A **kick-off heel** makes them easy to take off.

Two outsole options, both certified **slip resistant** (SR): PU for **everyday comfort**, or PU-TPU for added **grip** and **abrasion resistance**. Toe caps and midsoles are optional, in **steel** or **non-metallic** versions.

Orange

Waterproof

The polyurethane upper is injected as a single piece and fully sealed. Feet stay dry through water and mud, all day long.

Light & Easy Clean

With minimal lines, the smooth upper lets dirt wash off easily with water. Built light, it puts less strain on your legs through hours of walking and standing.

ProFlex Fitting

Developed by Anka. It wraps closely around the foot and up around the ankle, with a seamless lining inside. The boot stays in place as you move, comfortable through long shifts.
Built like a boot. Fits like a shoe.

Wide Calf

Made wider at the calf, the top of the boot gives more room for the leg and for work trousers worn inside.

PU

For everyday comfort
on most floors.

PU-TPU

For added grip and
high abrasion resistance.

Made for Daily Work

The 101 is the Anka boot with a smooth, easy-to-clean upper, built for work where hygiene is a must, every shift.

Options

Upper	Polyurethane
Toe-Cap	None, Fiber, Steel
Midsole	None, Non-Metallic, Steel
Outsole	PU, PU-TPU
Lining	Regular, Warm Line
Sizes	36-48 (EU)

Strong Grip

Multi-directional lugs hold on wet, slippery floors, and the outsole is certified for slip resistance (SR) and ladder grip (LG). Every step feels steady, on the floor or on a ladder.

ANKA
PRO BOOTS

DRY.
ALL SHIFT.

RIGGER

Made for Active Work

The Rigger is the shorter version of the Anka boot, with pull-on loops and a fabric collar. Quick to pull on and off between tasks, it is built for work that keeps you moving. In the model list, Rigger models are marked with an **R**.

For Warm Lining option.

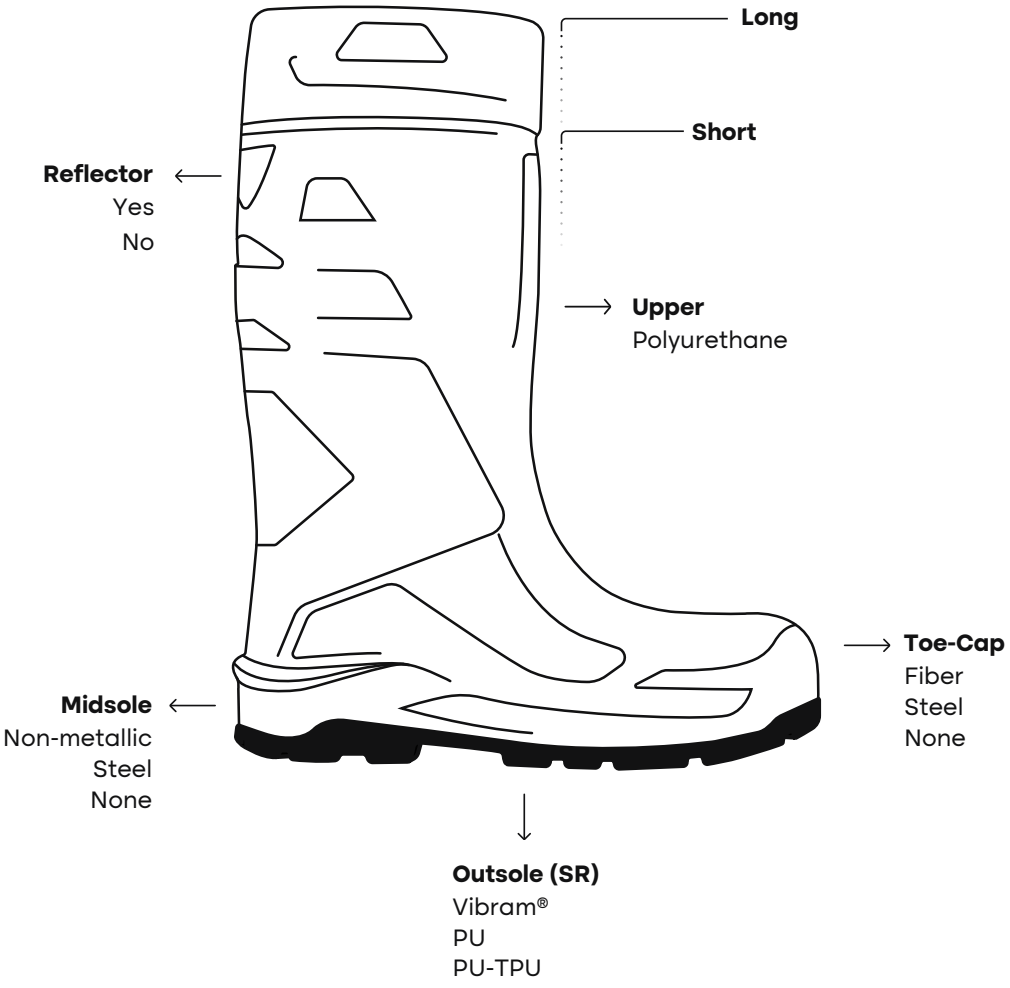

WARM
LINING

For work in the cold, selected models come with a warm lining and a fabric collar. In the model list, look for Warm in the Lining section.

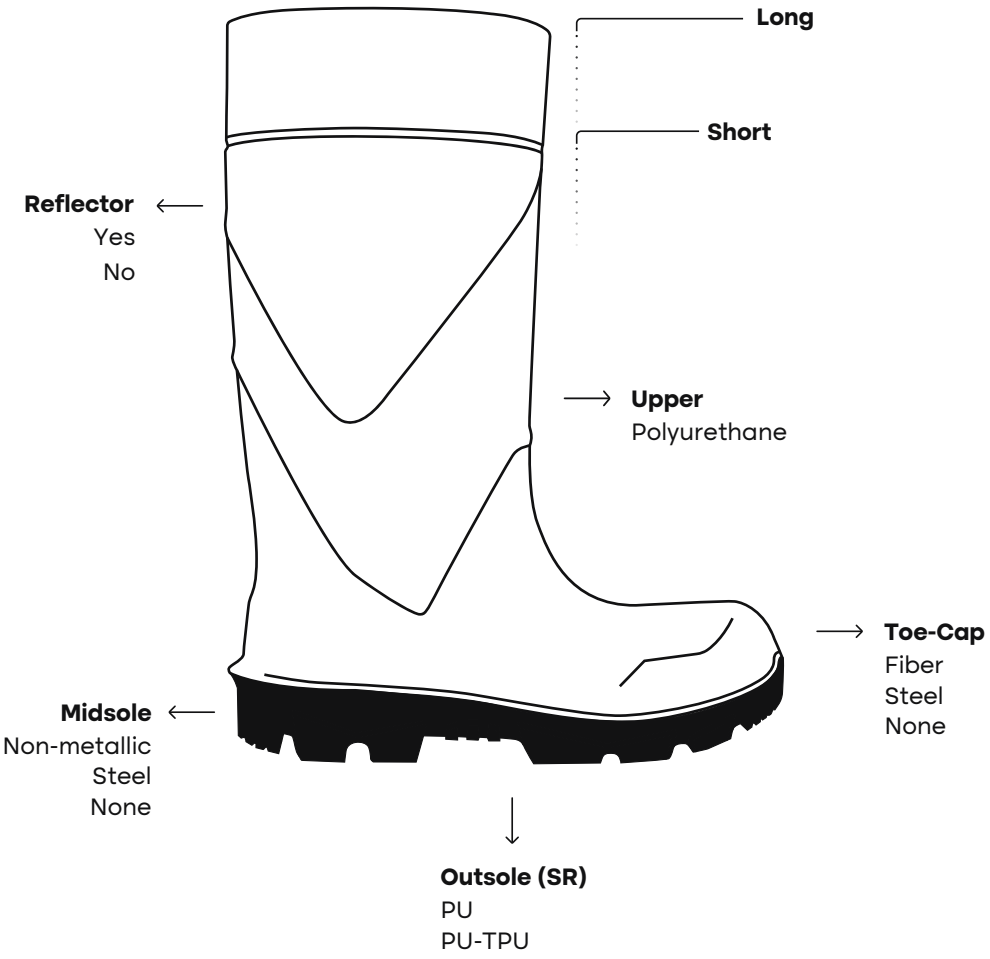

Easy on. Built to move.

Made With **Experience**

Designed and developed in **Italy**. Anka boots are made in a factory dedicated to boots, with **more than 50 years** of experience in safety footwear behind it.

From the seamless lining to the **TPU pieces** and the **final injection**, each boot is made inhouse, with the care that comes from doing one thing and doing it well.
